

Book of Secrets

“Book of Secrets” is a 5-reel video slot with 10 paylines. The game has 10 different symbols, including a Wild symbol.

Game flow

Before starting a game round, the player can set the bet using the “BET” control to set the bet per line value and the active payline count. The bet value does not change between game rounds, it remains constant, unless the player decides to change it. A game round is started by pressing the “SPIN” button.

The “BALANCE” field displays the available amount of money for the player. The field “WIN” displays the amount of money that the player won during his last game round. The “BET” field displays the amount the player wagers in a game round. Prior to starting a new game round, the whole amount from the “WIN” field is transferred to the “BALANCE” field. By pressing the “MAX BET” button the maximal values for the line bet and active payline count are set with regard to player’s balance.

By pressing the “AUTOPLAY” button, the automatic play mode is started, where the player is not required to press the “SPIN” button to start a game. The “AUTOPLAY” function is interrupted in one of the following cases:

- the player does not have enough money in the “BALANCE” field to play the next game round
- the Free Spins feature starts
- the Free Spins feature ends
- the player presses the “AUTOPLAY STOP” button

Paytable

The paytable displays values, that based on the winning combination multiply the wagered line bet value, unless stated otherwise.

Paylines

Winning combinations pay leftmost to right based on consecutive symbol count. “Wild” substitutes for all symbols, except the Special expanding symbol. Only the highest winning combination on a payline is paid. Simultaneous wins from different paylines add up. The player can change the active payline count.

Bonus game “GAMBLE”

If a player wins any amount, he can try to double it. The “GAMBLE” bonus game can be started by pressing the “GAMBLE” button, even in case “AUTOPLAY” is active. The “GAMBLE” feature is not available during Free Spins.

The player can end the “GAMBLE” bonus game by pressing the “COLLECT” button.

In the “GAMBLE” bonus game the player has to pick the red or black color. In case his pick matches the next revealed card’s color, his current win is doubled. He can continue to play the “GAMBLE” bonus game as long as he does not lose, or reach the limit.

The amount gambled can be reduced to half by pressing the “HALVE” button. The other half is credited to the player’s balance.

In case the amount expressed in cents cannot be split into 2 equal parts, it is split as follows:

Amount gambled: $((\text{amount} * 100) - 1) / 200$

Amount credited to balance: $((\text{amount} * 100) + 1) / 200$

The minimal amount that can be gambled after halving is 0.1 €.

The last five revealed cards are displayed in the bottom half of the screen.

Wild symbol

The “Wild” symbol substitutes for all symbols, except the Special expanding symbol.

Bonus game “Free Spins”

In case 3 or more “Wild” symbols land on the reels, independent on their position (scatter), the win according the payable is paid and the player is entitled to play 10 free spins in the “Free Spins” bonus game. At the start of the “Free Spins” bonus game, a symbol (except the “Wild” symbol) is randomly chosen to act as the Special expanding symbol. Special symbols pay like the appropriate regular symbols and may expand during the “Free Spins” bonus game, after the payout of regular wins, to cover all positions on the reel. Then the winning combinations are evaluated for the Special symbols based on their count on an active payline (do not need to be present on adjacent positions and do not have to start on the leftmost reel). Special symbols expand only when enough symbols for a win are present. During the “Free Spins” bonus game, more free spins can be acquired. During the “Free Spins” bonus game, no money is subtracted from the player’s “BALANCE” on a spin. The free spins are played with the same active payline count and bet per line settings as the game round which awarded the “Free Spins” bonus game. Wins are accumulated in the “WIN” field during the “Free Spins” bonus game.
