

Fruit Awards

“Fruit Awards” is a 4-reel video slot with 81 fixed paylines. The game has 9 different symbols, including a Wild symbol.

Game flow

Before starting a game round, the player can change the bet using the “BET” control. The bet value does not change between game rounds, it remains constant, unless the player decides to change it. A game round is started by pressing the “SPIN” button.

The “BALANCE” field displays the available amount of money for the player. The field “WIN” displays the amount of money that the player won during his last game round. The “BET” field displays the amount the player wagers in a game round. Prior to starting a new game round, the whole amount from the “WIN” field is transferred to the “BALANCE” field. By pressing the “MAX BET” button the bet is set to its maximal value with regard to player’s balance.

Pressing the “AUTOPLAY” button opens the “AUTOPLAY” settings where the player can choose the number of rounds played automatically, without pressing the “SPIN” button to start a game. The “AUTOPLAY” function is interrupted in one of the following cases:

- the player does not have enough money in the “BALANCE” field to play the next game round
- the selected number of spins has been played
- the player pressed the “AUTOPLAY STOP” button

Paytable

The paytable displays values that multiply the total bet wagered based on the winning combination.

Paylines

Winning combinations pay leftmost to right based on consecutive symbol count and only on paylines with the most winning symbol occurrences for the given symbol. Only the highest winning combination on a payline is paid. Simultaneous wins from different paylines add up. The game is always played on all paylines.

Lines 1-81 represent all possible payline combinations where a line is defined by exactly 1 position on each of the 4 reels.

Bonus game “GAMBLE”

If a player wins any amount, he can try to double it. The “GAMBLE” bonus game can be started by pressing the “GAMBLE” button, even in case “AUTOPLAY” is active.

The player can end the “GAMBLE” bonus game by pressing the “COLLECT” button.

In the “GAMBLE” bonus game the player has to pick the red or black color. In case his pick matches the next revealed card’s color, his current win is doubled. He can continue to play the “GAMBLE” bonus game as long as he does not lose, or reach the limit. Collecting the win ends the gamble feature.

The amount gambled can be reduced to half by pressing the “HALVE” button. The other half is credited to the player’s balance. In case the amount expressed in cents cannot be split into 2 equal parts, it is split as follows:

Amount gambled: $((\text{amount} * 100) - 1) / 200$

Amount credited to balance: $((\text{amount} * 100) + 1) / 200$

The minimal amount that can be gambled after halving is 0.1 €.

The last five revealed cards are displayed in the bottom half of the screen.

Wild symbol

Wild substitutes for all symbols. Each Wild symbol present in a winning combination doubles its payout. This symbol does not create winning combinations on its own when multiple Wild symbols appear on a payline.
