Game flow

Before starting a game round, the player can set the bet using the "BET" control to set the bet per line value and the active payline count. The bet value does not change between game rounds, it remains constant, unless the player decides to change it. A game round is started by pressing the "SPIN" button.

The "BALANCE" field displays the available amount of money for the player. The field "WIN" displays the amount of money that the player won during his last game round. The "BET" field displays the amount the player wagers in a game round. Prior to starting a new game round, the whole amount from the "WIN" field is transferred to the "BALANCE" field. By pressing the "MAX BET" button the maximal values for the line bet and active payline count are set with regard to player's balance.

By pressing the "AUTOPLAY" button, the automatic play mode is started, where the player is not required to press the "SPIN" button to start a game. The "AUTOPLAY" function is interrupted in one of the following cases:

- the player does not have enough money in the "BALANCE" field to play the next game round

Only the highest winning combination on a payline is paid. Simultaneous wins from different paylines add up. The game is always played on all paylines.

Bonus game “GAMBLE”

If a player wins any amount, he can try to double it. The “GAMBLE” bonus game can be started by pressing the “GAMBLE” button, even in case “AUTOPLAY” is active.

The player can end the “GAMBLE” bonus game by pressing the “COLLECT” button.

In the “GAMBLE” bonus game the player has to pick the red or black color. In case his pick matches the next revealed card’s color, his current win is doubled. He can continue to play the “GAMBLE” bonus game as long as he does not lose, or reach the limit.

The amount gambled can be reduced to half by pressing the “HALVE” button. The other half is credited to the player’s balance.

In case the amount expressed in cents cannot be split into 2 equal parts, it is split as follows:

Amount gambled: $((\text{amount} * 100) - 1) / 200$

Amount credited to balance: $((\text{amount} * 100) + 1) / 200$

The minimal amount that can be gambled after halving is 0.1 €.

The last five revealed cards are displayed in the bottom half of the screen.

Wild symbol

Wild symbol substitutes for all symbols, except the Bonus symbol. Each Wild on payline doubles its payout.

Free Spins with freezing combinations

When 3 or more Bonus symbols land anywhere on reels 2, 3 and 4 during the base game, the player is entitled to play 10 free spins in the “Free Spins” bonus game.

In every spin during “Free Spins” bonus game, when new winning combinations appear or existing winning combinations grow, they remain in place and the reels respin. The wins for the given spin are awarded after the last respin.

During the “Free Spins” bonus game, more free spins can be acquired. During the “Free Spins” bonus game, no money is subtracted from the player’s “BALANCE” on a spin. The free spins are played with the same active payline count and settings as the game round which awarded the “Free Spins” bonus game. Wins are accumulated in the “WIN” field during the “Free Spins” bonus game.
