- ◆ The bonus screen has thirty (30) gold tiles that the player must choose one at a time.
- ◆ Each tile may have a symbol in it, which corresponds to one of the bonus levels.
- ◆ When picked, the symbol moves to the bonus level, displayed at the top of the screen.
- ◆ If the player collects four (4) tiles with the same symbols, he is awarded the corresponding bonus level and the bonus game ends.

#### **Progressive Feature – Scatter Bonus**

- ◆ If this feature is activated, each bet rises the scale of the “Hot Luck” thermometer on the screen, indicating an accumulation of the Bonus until it reaches the top or if one of the three bonus “Minor”, “Major” or “Mega” is hit.
- ◆ When the scatter mode is active, a sign “Active” is displayed on the thermometer and scatter winnings are distributed between all active players within allowed bet limits.
- ◆ At the end of each game the player can be shown the “Hot Luck” win animation.
- ◆ The duration of the scatter mode depends on the scatter setting and number of active players.
- ◆ It ends when all the winnings are paid off. The sign “Active” on the screen disappears and the scale goes back down.
