Welcome to the Egypt Gods rules!

GAME DESCRIPTION

Egypt Gods is a 5-reel, 3-row video slot.
The game is played with 9 fixed paylines.
The game has 9 regular symbols, Scatter substitution and Free Spins with Expanding feature.
The objective is to spin the reels so that the symbols form the winning combinations on the existing paylines. A winning combination of identical symbols is formed in sequence from the most left to right reel. The more identical symbols are formed successively, the greater the win. The required number of symbols to create a winning combination, win coefficient and paylines are displayed in the Paytable.

FEATURES

Scatter Symbol
Scatter symbol substitutes for all regular symbols.
3 or more Scatter symbols activate 10 Free Spins.

Free Spins
At the beginning of Free Spins, the special Expanding symbol is randomly selected.
If there are enough symbols to form a winning combination then this special symbol expands and covers 3 positions on the reel.
The special symbol will expand only after prizes for regular winning combinations have been evaluated.
Scatter symbol does not substitute for Expanding symbols.
Expanding symbols form combinations, even though the symbols are arranged on non-adjacent reels.
Free Spins are played with the same Bet as the spin that activates Free Spins.
Additional Free Spins can be won during Free Spins.

HOW TO CALCULATE THE PAYLINE WIN

• Count the number of identical symbols formed in sequence on the payline from the most left to right reel.
• Check the coefficient for the corresponding number of symbols shown in the Paytable.
• Payline win is equal to the coefficient multiplied by the bet.
• Only the highest win per payline is paid.

RETURN TO PLAYER

The overall theoretical return to player is $[RTP_VALUE]%.

RANDOMIZATION

The reels are spun with a fair and equal chance for each stop position by a random number generator. For more information, visit http://evoplay.games/RNG.
