GAME DESCRIPTION

Fruit Burst is a 5-reel, 3-row video slot.

The game is played with 10 fixed paylines.

The game has 7 regular symbols, Wild symbols, Wild substitution, and Respin feature.

The objective is to spin the reels so that the symbols form the winning combinations on the existing paylines.

A winning combination of identical symbols is formed in sequence from the most left to right or from the most right to left reel.

The more identical symbols are formed successively, the greater the win. The required number of symbols to create a winning combination, win coefficient and paylines are displayed in the Paytable.

- Check the coefficient for the corresponding number of symbols shown in the Paytable.
- Payline win is equal to the coefficient multiplied by the bet.
- Only the highest win per payline is paid.

RETURN TO PLAYER

RANDOMIZATION
