GAME DESIGN

Game Theme and Graphics

Do your eyes widen at the sight of sparkling diamonds? Then hold on - these gems will make you weak in the knees! Open our treasure chest and land the jewels in the correct order along the 10 win lines - and you've got a winning combination, which triggers the 'Lock & Spin' feature with which you can really cash in!

Main Game

Your aim is to land 5 identical symbols along a win line. Winning combinations start on the first reel on the left and run along an active win line to the last reel on the right in the regular game. To win, the symbols must lie next to each other without any other symbols coming between them.

Lock & Spin Bonus

Land a winning combination on one or more lines to trigger the 'Lock & Spin'-Feature. All symbols in your current winning combination(s) are locked to the reels and all other positions are spun again. Any new symbols which compliment your fixed winning symbols also become fixed and all other positions are spun again. You will continue to receive spins as long as you keep landing complimenting symbols. As soon as the feature comes to an end, you will be credited with your winnings and all locked symbols will be released.

Rules

All prizes are for combinations of a kind. Highest win only paid per selected line. Line wins are added. Malfunction voids all pays and plays.
