GAME DESIGN

Game Theme and Graphics

Have you always wanted to go with a beautiful archeologist in search of treasure? Our heroine from the Golden Ark slot machine is not only beautiful, but also quite clever. She knows where the treasure of the pharaoh is in faraway Egypt! So hit the road and with a little luck the Eye of Horus will show you the way to great riches!

Main Game

The aim of Golden Ark is that all 5 reels display the same symbol. In normal mode the winning patterns start from the left hand side and run along the win line. To win, the same symbols need to land next to each other without other symbols between them. The 'Book' symbol is Wild and substitutes for all symbols during normal play. The 'Book' symbol is also used as a Scatter symbol to trigger the Golden Ark Free Game Feature.

Free Games with Special Expanding Symbol

3 or more Scatters on screen trigger 10 Free Games with 'Special Expanding Symbol'. The 'Special Expanding Symbol' can not be substituted by a Scatter symbol during Free Games.

One 'Special Expanding Symbol' is randomly selected at the start of the Free Games. During Free Games and after payout of regular symbols, the special symbol may expand to cover 3 positions on the reel and pays like the regular symbol but even on non adjacent positions and on all lines played. Expanding is only triggered if enough symbols for a win are present.

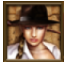

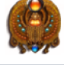

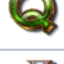

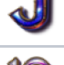

Free Games are played at trigger bet and lines. Free Games can be retriggered.
