## GAME DESIGN

### Game Theme and Graphics

Who isn't fascinated when looking at the night sky with thousands of sparkling stars? Shooting Stars brings this fascination to your screen: Galaxies full of blue and red giant stars, ring planets and comets await you here - and with a little luck you will also get the Shooting-Star-Bonus, which will let the blue star grow indefinitely as well as your winnings!

### Main Game

Shooting Stars is played on 5 reels and 10 win lines. Your aim is to land 5 identical symbols along a win line. Winning combinations start on the first reel on the left or right and run along an active win line to the last reel on the right or left. To win, the symbols must lie next to each other without any other symbols between them. The Wild substitutes all symbols and activates the Shooting Star Bonus.

## Shooting Star Bonus

One or more 'Star' symbol appearing anywhere on reels 2, 3, or 4 activates the Shooting Star Bonus.

During the Shooting Star Bonus, the 'Star(s)' expands to fill the entire reel and remain in place while the other reels re-spin. If a new 'Star' appears during a re-spin, it will expand and holds in place together with any previously expanded 'Star' for another re-spin. The Shooting Star Bonus ends when no new 'Stars' appear during a re-spin.
