

Aviator game rules

Aviator is easy to play as 1-2-3:

01: BET before takeoff.

02: WATCH as your Lucky Plane takes off and your winnings increase.

03: CASHOUT before the plane disappears and wins X times more!

But remember, if you did not have time to make a Cashout before the Lucky Plane flies away, your bet is lost. Aviator is pure excitement! Risk and win. All in your hands!

More details

- The win multiplier starts at 1x and grows more and more as the Lucky Plane takes off.
- Your winnings are the multiplier at which you made a Cashout multiplied by your bet.
- Before the start of each round, our provably fair random number generator generates the coefficient at which the Lucky Plane will fly away. You can check the honesty of this generation by clicking on [icon] opposite the result in the History tab

GAME FUNCTIONS

Bet & Cashout

- Select amount and press “Bet” button to make a bet.
- You can make two bets simultaneously, by adding second bet panel. To add second bet panel press plus icon, located on top right corner of first bet panel.
- Press “Cashout” button to cash out your winnings. Your win is bet multiplied by cashout coefficient.
- Your bet is lost, if you didn’t cash out before plane flies away.

Auto Play & Auto Cashout
