WILD SYMBOL

Wild symbol substitutes for all symbols except Bonus symbol and Lightning symbol.

WRATH OF ZEUS

During the Base Game, Lightning Symbols leave a frame of lightning on the position where they land.

Each frame of lightning stays in place until the 10th spin.

On the 10th spin, all frames of lightning transform into Wild symbols.

If the bet amount is changed all frames of lightning and the spin counter will reset.

If the bet amount is returned the frames of lightning and the spin counter return as they were played on that bet setting.

FREE SPINS

Bonus symbol appears only on reels 2, 3 and 4.

When 3 Bonus symbols land anywhere on the reels, Free Spins are awarded according to the Paytable.

At the beginning of Free Spins, the player gets to choose the type of feature by selecting one of the Lightning spheres.

Each lightning sphere awards a different count of free spins and Wild symbols.

During Free Spins, every spin a lightning strikes into the reels creating Wild symbols on random positions.

Free Spins can be retriggered and the player gains the same amount of free spins and Wild symbols as he picked during the start of the Free Spins feature.

Free Spins are played at the same bet as the round activating Free Spins.

During Free Spins a different set of reels is used.

GAMBLE

You are able to gamble any win not exceeding [per operator].

The gamble feature is card based and you have to guess the color of the next revealed card.

A correct guess doubles the win; a wrong guess causes you to lose your win.

The win can be gambled until a wrong guess or until a limit is reached.

Collecting the win ends the gamble feature.

You can use the **HALVE** option to credit half of your win to your balance and gamble the rest.

You cannot gamble during Free Spins.

You are allowed to gamble [per operator] times during a single gamble feature.

Joker substitutes for any color.
